Anita Klein ,Doctor, Teachers and Gynasium Geretsried Group
Germany.

Its been very to great to spend our time with all of you. At the sametime, thank you so much for coming here specially for Lophelling family. Our children are also very happy to get sponsor and friends like you. We will never forget what you have done for us and will always pray for your betterment in life ahead. We all thank you for distributing us so many clothes, socks, scarf and gloves which are needed these day in such a Himalayan area. We also thank for the sport things to our students and also teach them how to play with it. They were really happy for that You also give us stationary things which is very important for the development of the brain of small children . Thank you very much .You make us easy to teach the children by giving lots of stationary things. All of you have created a new environment to our students during your stay time. We wish same like this in next time as well. We also wish all of you a successful life wherever you take step. It is difficult for us to payback your kindness towards us. But we hope that same support will always be there from you. We never forget your kindness done to us. We Lophelling family were very happy for you and your group.

Yours Lovingly
